

For Immediate Release

To our valued customers who depend on us, we would like to first apologize for any service interruptions you may have experienced recently.

We are working through a multi-faceted solution for sustained, predictable service, that you expect and deserve.

Currently we are evaluating all of our routing for optimization/contingency planning, we have had two significant recruiting/hiring events over the last few weeks and are training nearly a dozen new drivers that will be ready to go in the next two weeks. In the interim, we have brought 15 members of our team from across the country to support our challenges at AJB over the next few weeks.

We are also working on various long-term solutions behind the scenes, such as reconfiguring many of our routes, that will decrease the service interruptions and restore service back to the level to which our customers are accustomed in the near future.

Most importantly, our AJ Blosenski, Inc. team members are working tirelessly to get areas cleaned up while still safely operating within the Department of Transportation's Hours of Service Requirements. We appreciate any grace you can extend to them during this stressful time.

We appreciate your patience and understanding.

The A.J. Blosenski Team
